

ILMA

WOODWORKING TOOLS

I Il marchio ILMA, sinonimo di qualità, è garantito dal ciclo di produzione effettuato interamente all'interno dell'azienda, dal taglio dei materiali, al trattamento termico, per passare via via alle varie fasi di rettifica ed affilatura, fino al controllo finale di qualità ed imballo dei prodotti.

Nel nostro magazzino, sono costantemente disponibili lamiere in diverse tipologie di acciai e di vari spessori, che ci permettono di evadere con la massima sollecitudine anche gli ordini speciali o le forniture in pollici.

GB ILMA trademark is synonymous of quality, and we can offer this guarantee because all production process is made in our factory: cutting of steel, hardening, grinding, sharpening, until the final quality control and packing of our products.

In our store, we always have steel of different quality and thickness, so that we can deliver in short time the special knives and the orders in inch, too.
